

WEB IMPROVEMENT

WEDE5020 -GR 05

Abstract

This document details the functional, structural, and aesthetic improvements made to the Golden Touch Carpentry web platform to align with its official business proposal. The primary objective of the update was to support the company's strategic transition from a word-of-mouth model to a 24/7 high-converting digital storefront across Gauteng.

Golden Touch Carpentry

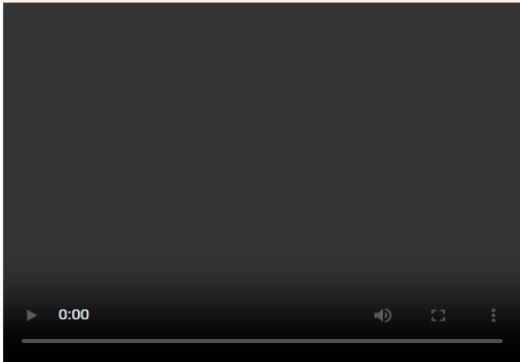

You Dream It, We Make It!

Custom Carpentry & Bespoke Renovation Experts in Gauteng

Our Customers love our custom carpentry from home decor to renovation, to office decor, to kitchen bedroom and bathroom fashionings. Golden Touch aims to deliver all heart visioned creations to each customer with a vision. We are Dedicated To Serving Johannesburg, Pretoria and Greater Gauteng

WHY CHOOSE US?

At Golden Touch Carpentry, we blend traditional craftsmanship with modern design to transform your spaces into lasting works of art. Founded in Johannesburg, our team brings passion, precision, and personal dedication to every project—whether it's custom cabinetry, full home renovations, bespoke doors, or structural roofing. We prioritize quality materials, transparent communication, and sustainable woodworking techniques so you receive durable, beautiful results on schedule and within budget. From initial concept to the final finish, we treat your home or business with the care it deserves, serving communities across Gauteng with reliability and craftsmanship you can trust.

This was changed so that it adapts to the overall site colours. And the logo needed an update on the year.

Business Proposal

The code improvements directly fulfill the strategic and functional goals outlined in the business proposal:

1. Strategic & Business Alignment

Transition to 24/7 Lead Generation: Transformed static layouts into fully interactive inquiry and contact forms, enabling potential clients across Gauteng to request estimates and upload project plans directly.

Enhanced Brand Value: Replaced unstyled elements with a cohesive, high-end color palette (#D4AF37 Metallic Gold and #1A1A1A Dark Charcoal) to position the business as a premier carpentry brand.

Service Transparency: Formatted pricing tiers (e.g., custom cabinetry and wardrobe ranges) and service listings into structured, readable sections to establish clear client expectations.

2. Technical & Architectural Fixes

Form & Data Validation: Standardized invalid input types (e.g., changing `type="firstname"` to `type="text"`), added proper form encoding (`multipart/form-data`) for file uploads, and matched label for attributes to input ids to ensure user submissions work smoothly.

Site-Wide Navigation & Protocols: Fixed broken menu links (`equiry.html` corrected to `enquiry.html`) and implemented functional `mailto:` protocols so users can directly email the workshop from any page.

ST10542227
Tankiso Moyo

DOM Integrity & Accessibility: Repaired unclosed tags (such as missing `</h2>` and `</strong>` tags) and structured each page into clean, modular HTML5 documents to improve cross-device responsiveness and accessibility.
