PROJECT INSTRUCTIONS

1. Organisation Overview:

- ❖ Name: [Organisation Name]
- ❖ Provide a brief history of the organisation.
- ❖ Mission and vision statements.
- ❖ Target audience.

2. Website Goals and Objectives:

- ❖ Define specific goals for the website (e.g., increase website traffic, generate leads, sell products, or provide valuable information).
- ❖ Determine and present key performance indicators (KPIs) to measure success.

3. Current Website Analysis (if applicable):

- Analyse strengths and weaknesses of the existing website.
- Identify areas for improvement based on the weaknesses identified.

4. Proposed Website Features and Functionality:

- Outline essential features (e.g., homepage, about us, contact page, products/services page) and the desired functionality.

5. Design and User Experience:

- Discuss the overall design aesthetic and branding, highlighting the following:
 - Colour Scheme: [Proposed Colour Palette]
 - Typography: [Font Choices and Hierarchy]
 - Layout and Design: [Overall Design Approach]
- User experience considerations (e.g., navigation, layout, colour scheme).
- Develop low-fidelity wireframes to visualise the website's layout and information hierarchy.

6. Technical Requirements:

- Identify hosting and domain name requirements and programming languages and frameworks (e.g., HTML, CSS, JavaScript).

7. Timeline and Milestones:

- Create a realistic project timeline with key milestones that follow the timeline during the subject's submission dates.

8. Budget:

- Estimate the budget for development, hosting, and maintenance (while this is a series of assignments, the budget should reflect realistic amounts based on your research).

9. References:

- References listed here are unique to the chosen organisation and the researched documentation of the Website Project Proposal. The references listed in this document and the general references used to complete Part 1 will be compiled in the README.md document in the repository for the entire PoE.

Proposal For: Golden Touch Carpentry

Brief History

Golden Touch Carpentry is a small business founded in 2020 by Sikhumbuzo Mbatha in a township in Johannesburg, Gauteng. The business was established after identifying a growing demand within the community for high-quality handmade woodwork and custom carpentry services. As the area continued to develop, there was an increasing need for custom furniture, home renovations, roofing, cabinetry, doors, windows, and other carpentry solutions.

Over the past five years, Golden Touch Carpentry has earned a strong reputation as a trusted local business. Through exceptional craftsmanship, attention to detail, and a commitment to customer satisfaction, the company has built lasting relationships with its clients. Much of its growth has been driven by word-of-mouth referrals from satisfied customers who value the quality and reliability of its work.

Every project is carefully designed and crafted to meet each client's unique needs, ensuring that every piece fits perfectly within their home or business. Golden Touch Carpentry remains committed to delivering professional, durable, and customized carpentry solutions while continuing to serve and contribute to the growth of the local community.

Mission Statement

At Golden Touch Carpentry, our mission is to provide high-quality, custom-made carpentry solutions that meet the unique needs of every client. We are committed to delivering exceptional craftsmanship, reliable service, and innovative designs while maintaining the highest standards of professionalism, honesty, and customer satisfaction. Through our work, we strive to improve homes and businesses, create employment opportunities, and contribute positively to the growth and development of our community.

Vision Statement

Our vision is to become one of Gauteng's leading and most trusted carpentry businesses, recognized for excellence in craftsmanship, innovation, and customer service. We aim to expand our services, embrace modern woodworking techniques, and build lasting relationships with our clients while creating beautiful, durable, and sustainable carpentry solutions that enhance the lives of the communities we serve.

Target Audience

Golden Touch Carpentry serves a diverse range of customers who require quality carpentry and woodworking services in Johannesburg, Gauteng, and the surrounding areas, and soon to the surrounding provinces. The business primarily targets:

- **Homeowners:** Individuals and families looking for custom furniture, kitchen cabinets, built-in wardrobes, doors, windows, roofing, home renovations, and general carpentry services.
- **Small Businesses:** Local businesses that require shop fittings, office furniture, shelving, reception desks, and other custom woodwork to improve their business premises.
- **Property Developers and Contractors:** Construction companies and property developers seeking skilled carpentry services for new residential and commercial building projects.
- **Schools, Churches, and Community Organisations:** Institutions that need furniture, repairs, renovations, shelving, and other carpentry solutions for their facilities.
- **Landlords and Property Managers:** Property owners who require maintenance, repairs, and renovations to keep their rental properties in good condition.

Golden Touch Carpentry focuses on customers who value quality craftsmanship, durable materials, affordable pricing, and personalised service. By delivering customised solutions that meet each client's specific needs, the business aims to build long-term relationships and maintain its reputation as a trusted carpentry service provider within the community.

PROJECT OBJECTIVES

Overview

This project aims to create a website for Golden Touch that will the business grow and become a national sensation. To help the business need less of admin work and to widen customer base.

Goals & Objectives

The primary goal of creating the Golden Touch Carpentry website is to establish a professional online presence that showcases the business's expertise and attracts new customers. The website will support the growth of the business by making its services more accessible and providing useful information to potential clients.

The specific goals of the website are to:

1. **Increase Brand Awareness**

Build recognition for Golden Touch Carpentry by presenting a professional image and showcasing the company's experience and craftsmanship.

2. **Promote Products and Services**

Display the range of services offered, including custom furniture, cabinetry, roofing, doors, windows, home renovations, and general carpentry work.

3. **Showcase Previous Projects**

Create a gallery of completed projects to demonstrate the quality of workmanship and inspire confidence in potential customers.

4. **Generate More Customer Enquiries**

Provide easy ways for visitors to contact the business through online enquiry forms, phone numbers, email, or messaging platforms to request quotations or consultations.

5. **Reach a Wider Market**

Expand beyond word-of-mouth marketing by reaching customers throughout Johannesburg, Gauteng, and nearby areas.

6. **Build Customer Trust**

Include customer testimonials, company information, and project photos to demonstrate reliability, professionalism, and customer satisfaction.

7. **Provide Business Information**

Make it easy for customers to find important details such as business hours, location, contact information, and the services offered.

8. **Support Business Growth**

Use the website as a marketing tool to attract new clients, increase sales opportunities, and support the long-term growth of the business.

9. **Improve Customer Convenience**

Allow customers to browse services, view completed work, request quotations, and contact the business at any time, from any device.

10. **Strengthen the Company's Competitive Advantage**

Differentiate Golden Touch Carpentry from competitors by highlighting its custom craftsmanship, quality materials, personalised service, and commitment to customer satisfaction.

Core Strategic Objectives & Tactical Execution

Objective	Website & Digital Implementation	Expected Outcome
Brand Awareness & Professional Image	Custom, mobile-responsive website featuring crisp typography, high-resolution media, clean branding elements, and an authoritative "About Us" section detailing craft experience.	Positions Golden Touch Carpentry as a premier service provider in Gauteng.
Service Promotion	Dedicated service landing pages for Custom Furniture, Built-in Cabinetry, Roofing, Doors & Windows, Home Renovations, and General Carpentry with detailed deliverables and material options.	Captures search intent for specific carpentry needs across search engines.
Project Showcase	High-resolution, interactive visual portfolio with before-and-after sliders, project categories, filterable galleries, and detailed material/scope specs.	Demonstrates craftsmanship quality and visually reassures prospective buyers.
Lead Generation	Prominent "Request a Quote" CTAs on every page, quick multi-step quotation forms, direct WhatsApp integration, and click-to-call buttons for mobile users.	Converts passive site traffic into direct sales enquiries and consultation bookings.
Regional Market Reach	Localized SEO targeting Johannesburg, Sandton, Randburg, Pretoria, and broader Gauteng regions through geo-targeted keywords and Google Business Profile optimization	Expands reach beyond word-of-mouth into high-intent regional organic search traffic.
Trust & Social Proof	Verified customer review feeds, written/video testimonials, accreditation badges, insurance/warranty statements, and real project photos (no stock images).	Overcomes buyer hesitation and establishes credibility before first contact.

Business Information	Sticky header/footer displaying operating hours, primary service areas, phone numbers, direct email address, and embedded interactive location maps.	Reduces friction for clients searching for basic logistical details.
24/7 Customer Convenience	Self-serve portal or clear navigation allowing prospective clients to browse portfolios, read service guides, and submit quote requests anytime on desktop or mobile.	Captures inquiries outside standard business hours.
Competitive Differentiation	Dedicated "Why Choose Us" sections highlighting bespoke craftsmanship, premium material selection, custom designs, transparent pricing, and punctual timelines.	Sets the company apart from generic contractors and mass-market furniture options.

Website Key Performance Indicators (KPI)

- **Business Growth & Lead Generation**
 - **Lead Volume & Source Tracking:** Total monthly inquiries split by channel (website forms, WhatsApp, phone calls, Google Search, direct referrals).
 - **Lead Conversion Rate:** Percentage of total inquiries that convert into signed contracts or paid projects.
 - **Customer Acquisition Cost (CAC):** Total sales and marketing expense divided by the number of new clients acquired
 - **Bid Win Rate / Hit Rate:** Percentage of formal proposals/quotations accepted by prospective clients.
- **Operational and Field Efficiency**
 - **On-Time Project Completion Rate:** Percentage of projects completed on or before the agreed contract deadline
 - **Material Waste Percentage:** Total raw material costs wasted or scraped vs. planned material estimates.
 - **Crew Productivity / Labor Hours per Job:** Actual hours worked compared to the estimated labour budget
 - **Rework Rate:** Percentage of total job hours or costs spent fixing or redoing work due to errors or material defects
- **Quality Control and Client Trust**
 - **Customer Satisfaction Score (CSAT):** Direct client feedback ratings post-project completion (e.g., 1–5 stars)

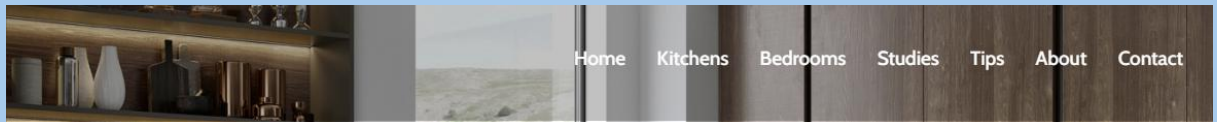

- **Repeat & Referral Rate:** Percentage of total revenue generated from returning clients or direct client referrals.
- **Snag List / Punch List Resolution Time:** The average days required to resolve final client touch-up requests before full sign-off.
- **Review Volume & Online Rating:** Monthly growth of verified 5-star reviews on Google Business Profile and social platforms.

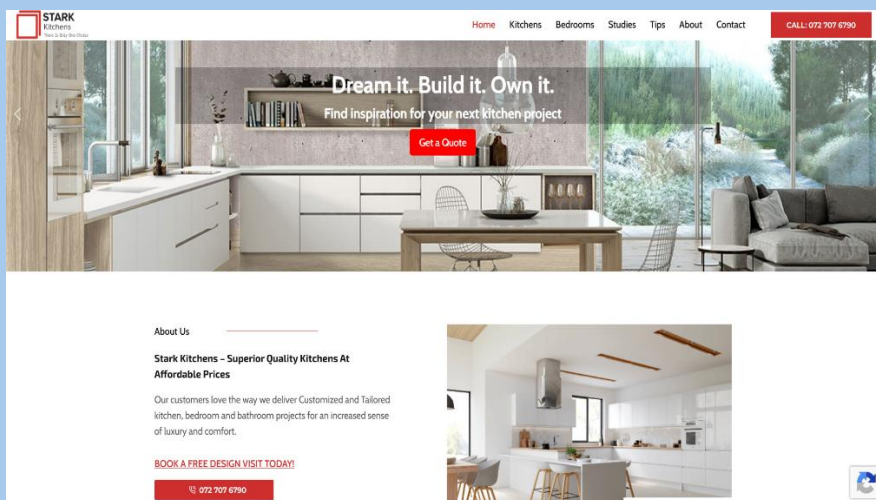

Proposed Website Features and Functionality

Visitor Experience & Conversion Engine

Header & Navigation

- **Sticky Top Utility Bar:** Emergency contact hotline, direct **WhatsApp Business** quick-connect, and regional badge ("Serving Johannesburg & Greater Gauteng").
- **Primary Navigation Menu:**
 - **Services** (Dropdown: Custom Cabinetry, Roofing & Structures, Doors & Windows, Renovations, General Carpentry).
 - **Home Page** (key offerings overview, why choose us, inquiry/quick contact)
 - **About Us** (Craftsmanship, Team, Materials & Guarantee).
 - **Contact & Quotation** (Highlighted CTA Button).
- **Home Page**

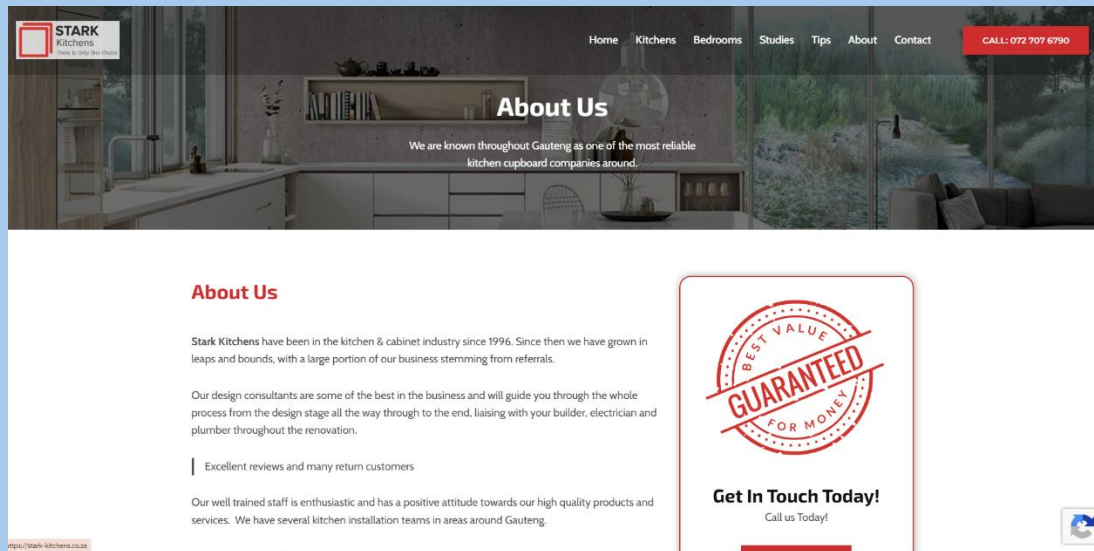

- **Hero Section:** High-impact banner featuring a headline, background video/photo of finished craftsmanship, clear value proposition ("Bespoke Carpentry & Renovation Experts in Gauteng"), and primary CTA ("Request a Free Quote").
- **Key Offerings Overview:** Grid display highlighting main service lines (Cabinetry, Roofing, Renovations, Custom Furniture).
- **Featured Projects Preview:** Interactive gallery highlighting top completed projects with direct links to full case studies.

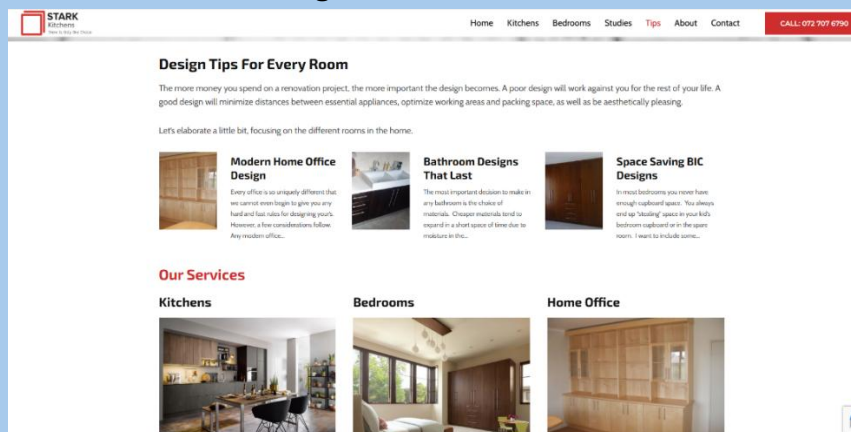

- Why Choose Us: Key differentiators (custom craftsmanship, quality wood/materials, transparent pricing, on-time completion).
- Social Proof Strip: Google review rating snippet, customer testimonials, and trust badges (insurance, warranty guarantee).
- Quick Contact / Inquiry Strip: Short lead-capture form and immediate WhatsApp link near the footer.

• About Us Page

- Company Story & Heritage: History of Golden Touch Carpentry, highlighting years of experience and dedication to fine woodworking.
- Our Process: Visual 4-step workflow (*Consultation & Site Measure* → *3D Design & Material Selection* → *Fabrication* → *On-Site Installation*).
- Materials & Craftsmanship Commitment: Overview of wood varieties used (Oak, Kiaat, Teak, Pine, Birch Ply) and premium hardware partners (e.g., Blum, Häfele).
- Certifications & Guarantees: Details on public liability insurance, structural guarantees, and safety standards.

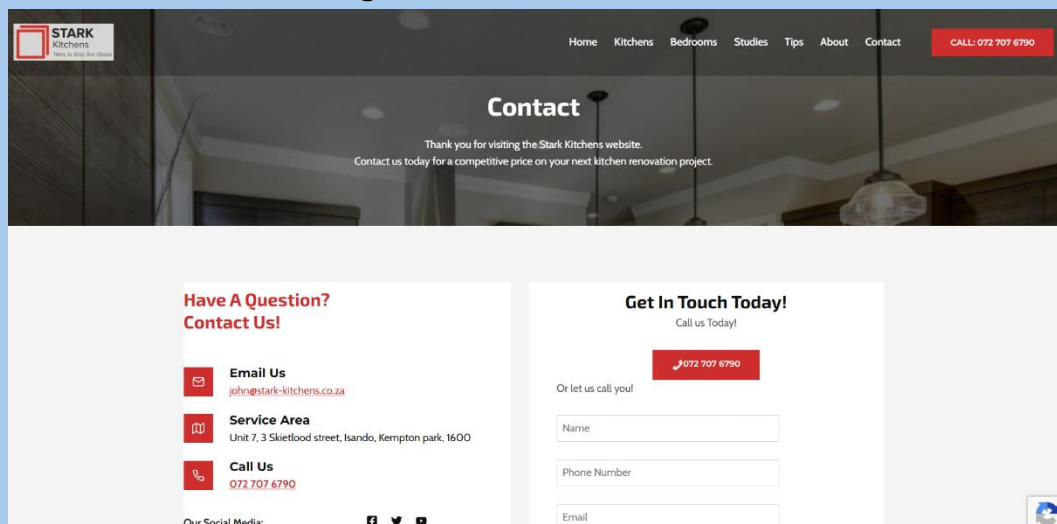

• Services & Products Pages

- Main Services Overview: Directory page summarizing all capabilities.

- Dedicated Service Landing Pages: Individual pages for high-search-volume categories:
 - *Custom Kitchens & Cabinetry* (Built-in cupboards, vanity units, islands).
 - *Doors, Windows & Architectural Timber* (Solid wood doors, frames, custom fitting).
 - *Roofing & Timber Structures* (Trusses, pergolas, decking, structural repairs).
 - *Home Renovations & General Carpentry* (Full home remodels, drywalling, skirtings, custom furniture).
- Page Features: Detailed scope breakdown, material options, photo galleries specific to that service, and a service-specific quote request button.
- **Contact & Consultation Page**

- Interactive Contact Form: Detailed inquiry fields (project type, estimated timeline, location, plan upload).
- Direct Logistics: Operating hours, phone numbers, direct email address, workshop physical address.
- Interactive Location Map: Embedded Google Map showing primary service coverage zones across Johannesburg, Pretoria, and broader Gauteng.
- Direct Messaging: One-click WhatsApp link for mobile users.

Core Conversions & Interactive Features

- **Interactive Project & Cabinetry Estimator:** A multi-step estimation tool where clients select project scope, room type, material preferences (e.g., Solid Oak, Kiaat, MDF, Melamine), and rough dimensions to receive a preliminary budget estimate.
- **Filterable Work Portfolio:**
 - Categorized by room/project type (Kitchens, Wardrobes, Roofing, Custom Furniture).
 - **Interactive Before & After Sliders** showing transformed site spaces.

- Structural detail popups (lists materials, hardware used, and timeline).
- **Smart Consultation Booking & Quote Request Form:**
 - Photo/Blueprint Upload capability for clients to attach site measurements or architectural plans.
 - Suburb/Location selector within Gauteng to filter service availability.
 - Preferred consultation date & time picker.
- **Direct Floating WhatsApp & Call Widget:** Mobile-friendly, one-tap floating launcher allowing visitors to start a direct chat or voice call with the workshop

Design and User Experience

This section outlines the design language, aesthetic strategy, and structural wireframes for the **Golden Touch Carpentry** website, focusing on translating craft experience and luxury finishes into a digital environment.

1. Overall Design Aesthetic & Branding Strategy

The proposed design aesthetic is **"Modern Industrial Warmth."**

This approach contrasts refined minimalism with textural, organic elements. The goal is to reflect the precision of modern engineering alongside the natural beauty of handcrafted wood.

DESIGN PRINCIPLE	IMPLEMENTATION STRATEGY	BRANDING ALIGNMENT
PRECISION	Clean lines, structured grids, and significant negative (white) space.	Communicates structural integrity, accuracy, and reliability.
HANDCRAFTED	Use of rich, textural imagery (wood grain close-ups, material details) as backgrounds or accents.	Highlights the tactile nature of custom carpentry and high-end finishes.
AUTHENTICITY	Dominant use of real project photography (no stock imagery) showcasing raw materials transforming into finished products.	Establishes genuine experience and immediate trust.

2. Design System: Color, Typography, and Layout

A. Color Scheme: [Proposed Color Palette]

The palette is rooted in the materials of the workshop, designed to make the vibrant colors of finished cabinetry and project photos "pop."

- **Primary Accent: Golden Oak (Hex: #B58953)**

- *Usage:* Key Calls-to-Action (buttons), links, active states, icons, and subtle section dividers.
- *Ideology:* Warmth, quality, reliability, and the "Golden Touch" brand name.

- **Secondary Context: Charcoal Slate (Hex: 2B2B2B)**

- *Usage:* Main headings, text, section backgrounds for high contrast, and footer.
- *Ideology:* Modern, professional, serious, and precise.

- **Background Base: Warm Linen (Hex: #F8F6F1)**

- *Usage:* Main content area background. Avoids sterile pure white for a softer, organic feel.

- **Text Base: Ink Black (Hex: 111111)**

- *Usage:* Body copy for maximum legibility.

B. Typography: [Font Choices and Hierarchy]

A clean, functional sans-serif typeface is prioritized to ensure clear communication across all devices.

- **Primary Headings (H1, H2): "Montserrat" (Bold/Semi-Bold)**

- *Style:* Modern, structured geometric sans-serif.

- *Function:* Communicates strength, authority, and modernization. Used for primary headlines and service titles.
- **Sub-Headings (H3, H4) & UI Elements: "Montserrat" (Medium/Regular)**
 - *Style:* Clean and highly legible.
 - *Function:* Used for section subtitles, form labels, and navigation items.
- **Body Copy: "Open Sans" (Regular)**
 - *Style:* Neutral, open, and optimized for extensive reading on screens.
 - *Function:* Used for all descriptive text, blog content, and testimonials.
- **C. Layout and Design: [Overall Design Approach]**
 - The layout utilizes a **responsive, structural grid** inspired by cabinetry measurements.
- **Grid-Based Structure:** Content is organized into clean columns, making services easy to scan and portfolio items easy to view.
- **Asymmetrical Balance:** Occasional offset layouts for images and text add visual interest and a custom, non-templated feel.
- **Textural Depth:** Subtle background textures (e.g., light wood grain or concrete texture) are used sparingly to break up large white spaces without distracting from the main content.

3. User Experience (UX) Considerations

- A seamless experience is critical for converting visitors into leads.
- **Intuitive Navigation (Hierarchy):** Primary services are accessible via a simplified dropdown menu. Important logistics (Phone, WhatsApp, "Request Quote") are *always* visible on the sticky header.
- **Mobile-First Design:** The entire experience is optimized for touchscreens, with easy-to-tap buttons, swipeable portfolio carousels, and quick-load images for users on-site or on the go in Gauteng.
- **Visual Storytelling:** Project galleries use "Before & After" interactive sliders to show immediate value. Material switches (wood, granite) help the client visualize their own projects.
- **Reduced Friction in Lead Capture:** The quotation form is multi-step (logical progression) and includes the option to immediately start a WhatsApp chat, catering to different communication preferences.

Technical Requirements

1. Domain & Hosting

- **Domain Name:** `.co.za` domain name (e.g., `goldentouchcarpentry.co.za`) to establish local trust in South Africa.
- **Hosting Provider:** Local South African hosting (such as Domains.co.za or xneelo) with fast SSD storage and automated daily backups to ensure high load speeds for local traffic.
- **Security:** Free SSL Certificate (HTTPS) to secure visitor forms and improve search rankings.

2. Languages & Frameworks

- **Content Management System (CMS):** **WordPress** paired with a modern page builder (Elementor or GeneratePress) for easy content updates by non-technical staff.
- **Front-End Technologies:**
 - **HTML:** Structures content and pages.
 - **CSS:** Custom styles, responsive mobile layouts, and modern typography.
 - **JavaScript (JS):** Powers interactive features like before/after sliders, mobile navigation, and multi-step forms.

3. Key Integrations & Analytics

- **WhatsApp Business API / Webhook:** For instant client chat routing.
- **Google Maps API:** Embedded map for coverage zones.
- **Google Analytics 4 & Search Console:** For performance and traffic tracking.

Timeline and Milestones

A 10-week project implementation schedule structured around standard submission cycles and client sign-off gates:

PHASE	DURATION	KEY MILESTONES & DELIVERABLES	TARGET GATE / SIGN-OFF
PHASE 1: DISCOVERY & STRATEGY	Weeks 1–2	• Finalize project scope and target audience requirements. • Secure <code>.co.za</code> domain registration and hosting environment.	Milestone 1: Approved Project Blueprint & Asset Repository

		• Gather initial media assets (high-res workshop/project photos, branding guidelines, service copy).	
PHASE 2: UI/UX DESIGN & WIREFRAMING	Weeks 3–4	• Develop high-fidelity visual mockups using the design system (Golden Oak/Charcoal palette, Montserrat/Open Sans typography). • Map interactive user flows for the multi-step quote form and project galleries. • Review and refine layouts for mobile, tablet, and desktop viewports.	Milestone 2: Client Sign-off on Final UI/UX Design Mockups
PHASE 3: FRONT-END DEVELOPMENT	Weeks 5–7	• Build custom WordPress theme structure using HTML, CSS, and JavaScript.	Milestone 3: Working Functional Prototype Ready for Review
PHASE 4: CONTENT INTEGRATION AND OPTIMIZATION	Week 8	• Populate all content across Home, About, Services, Portfolio, and Contact pages. • Execute on-page Local SEO (Johannesburg/Gauteng keyword targeting, schema markup, Google Maps embed). • Optimize imagery (Web conversion, lazy loading) for high-speed mobile delivery.	Milestone 4: Full Staging Site Populated & SEO Configured
PHASE 5: TESTING, QUALITY ASSURANCE AND TRAINING	Week 9	• Cross-browser and multi-device responsive testing. • Security audit (SSL check, re-CAPTCHA spam filtering, POPIA compliance checks). • Conduct staff CMS training for internal team management of portfolio updates.	Milestone 5: QA Testing Complete & Client Final Approval
PHASE 6: DEPLOYMENT AND POST-LAUNCH	Week 10	• Point DNS records and launch live website to primary server. • Index site via Google Search Console and connect Google Analytics 4.	Milestone 6: Official Public Website Launch

- Begin 30-day post-launch technical warranty and performance monitoring.

Budget

An estimated budget for the design, hosting, and ongoing maintenance of the **Golden Touch Carpentry** website, based on market rates in South Africa (ZAR):

1. Upfront Web Development & Setup (Once-Off)

Line Item	Description & Scope	Estimated Cost (ZAR)
UI/UX Design & Branding Integration	Custom layout creation (Montserrat/Open Sans, Golden Oak palette), responsive wireframing, and interactive UI component prototyping.	R 4,500
WordPress CMS & Front-End Development	Core architecture builds across 6–8 key pages (Home, About, Services Directory, Dedicated Service Sub-pages, Gallery, Contact) using clean HTML/CSS/JS.	R 7,500
Custom Features & Integrations	Multi-step dynamic quotation form with file/blueprint upload, floating WhatsApp Business quick-chat widget, interactive Before/After sliders, and Google Maps API embed.	R 3,500
Local SEO & Media Optimization	On-page schema markup (Local Business), Johannesburg/Gauteng keyword optimization, image compression (WebP), and Google Business Profile integration.	R 2,800
Initial Quality Assurance & POPIA Compliance	Cross-device mobile testing, SSL configuration, reCAPTCHA spam filtering, POPIA-compliant privacy policy setup, and staff CMS handoff training.	R 3,000
Total Estimated Development Investment	Professional Lead-Generation Build	R 21,300

2. Infrastructure & Hosting Expenses (Annual / Recurring)

Service Item	Provider / Specifications	Annual Cost (ZAR)
Domain Name Registration (.co.za)	Local.co.za domain via local registrar (e.g., xneelo).	R 105 / year

Business-Grade SSD Web Hosting	Local SA server location (Johannesburg data-center), NVMe SSD storage, SSL certificate, 99.9% uptime, daily backups.	R 1,800 – R 3,600 / year (~R150–R300/monthly)
Professional Business Email Hosting	Google Workspace or Microsoft 365 (info@goldentouchcarpentry.co.za).	R 1,200 – R 2,400 / year (per user seat)
Total Estimated Annual Infrastructure	Essential Fixed Infrastructure Overhead	R 3,105 – R 6,105 / year

3. Maintenance, Support & Security (Monthly Retainer)

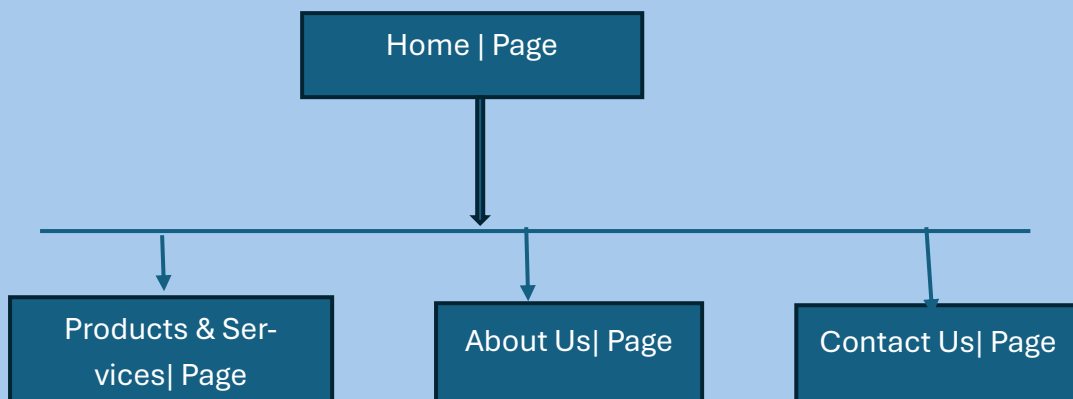

To keep the platform secure, fast, and converting prospective leads:

- **Standard Monthly Maintenance Package: R 800 / month**
 - **Security & Updates:** Core WordPress updates, plugin/theme security patching, daily off-site database backups.
 - **Performance Monitoring:** Uptime checks, speed audits, and broken link monitoring.
 - **Content Updates:** Up to 1–2 hours of developer time per month for adding new completed projects to the gallery, updating client reviews, or adjusting service pricing.

4. Total Cost Summary

Initial Upfront Build: **R 20,300** (once-off)
 Annual Operating Costs: **R 3,905 – R 6,905** (hosting + email + monthly retainer)

Hierarchy Chart

UPDATED PROPOSAL

The code improvements directly fulfill the strategic and functional goals outlined in the business proposal:

1. Strategic & Business Alignment

- **Transition to 24/7 Lead Generation:** Transformed static layouts into fully interactive inquiry and contact forms, enabling potential clients across Gauteng to request estimates and upload project plans directly.
- **Enhanced Brand Value:** Replaced unstyled elements with a cohesive, high-end color palette (#D4AF37 Metallic Gold and #1A1A1A Dark Charcoal) to position the business as a premier carpentry brand.
- **Service Transparency:** Formatted pricing tiers (e.g., custom cabinetry and wardrobe ranges) and service listings into structured, readable sections to establish clear client expectations.

2. Technical & Architectural Fixes

- **Form & Data Validation:** Standardized invalid input types (e.g., changing type="firstname" to type="text"), added proper form encoding (multipart/form-data) for file uploads, and matched label for attributes to input ids to ensure user submissions work smoothly.
- **Site-Wide Navigation & Protocols:** Fixed broken menu links (equiry.html corrected to enquiry.html) and implemented functional mailto: protocols so users can directly email the workshop from any page.
- **DOM Integrity & Accessibility:** Repaired unclosed tags (such as missing </h2> and tags) and structured each page into clean, modular HTML5 documents to improve cross-device responsiveness and accessibility.
